PRELIMINARY NOTE

The following list provides the Ewe/Ewe language equivalents for the terms used to refer to the various institutions of the Federal State. Since Ewe is, to the best of our current knowledge, the source language of nearly all the languages spoken upon our Terra Earth, or at least a significant majority of them, it seemed to us of the utmost importance that it be placed at the heart of the entire linguistic issue of our present civilization. The goal is to restore to our multilingual societies the ability to rediscover their roots and quickly merge into a global human brotherhood.

INTRODUCTION

Our Mother Earth, Terra Urantia, stands on the threshold of a Great Awakening of Consciousness that will immerse her into a phase of balance and understanding never before achieved in the history of our civilization. This is the path toward the Golden Age promised by our beloved and cherished Creator.

Given that things are as they are--and have always been throughout history--and that the guiding principles are clearly defined and recognized regarding the foundations of the old world that is coming to an end, sensed mankind must be able, on this basis, to clearly perceive the path forward for building the new world within and through what is called Light and Life.

When, in the course of human events, it becomes necessary for a people or a civilization to sever the manifold political, social, economic, scientific, and other ties that have confined it within a low-vibration mold--one that forces a move against the current of evolution within its mother galaxy--the position to which the Laws of Nature and the God of Nature entitle them requires that they identify the root causes and bring about corrections.

And this can only be achieved by becoming aware of the Mighty Divine Presence within each member of the civilization and by intentionally working with this Omnipotence and Omniscience in the creation of the new civilizational structure.

This road alone will lead Mankind, in a certain and irreversible manner, to the primary goal of the New Golden Age on a lasting foundation.

GOD alone IS and therefore, all our DESIRE, both individually and collectively, must strive toward an ever-more-faithful embodiment of the exalted attributes of THE ONE ALL THAT IS.

Holding these truths to be self-evident, and that all men are created equal;

That they are endowed by their Creator with certain unalienable rights;

That, to secure these rights, there are instituted among men governments which derive their rightful powers from the consent of the governed;

It is projected a new political-civilizational system, founded on divine principles and organizing the powers and all of Human society in the form which will ultimately allow for the rapid achievement of the goal of the Life experience.

The following pages are therefore drafted in the basic guidelines of what the Fundamental Law of a Nation or a Federation of Nations under the Authority of the Creator-God should look like.

DUSEKA NE PE-ESUTE-ATON

Federal Constitution of the United Peoples of Pe-Esute-Aton under The Lighted Divine Atonla Popularity

PREAMBLE

The Laws of God and Creation command that the primary duty of the Human Being, regardless of the planet where he/she has chosen to dwell, is to develop his/her Divine Spirit. And this is an ascending path toward the highest pinnacle of its unfolding through the understanding and embodiment of the principles of Absolute Balance and Love. This highest pinnacle, ultimate goal of every human being, is enlightenment into Cosmic and Christ Consciousness.

Therefore, in the name and under the Authority of the Omnipotent God-Creator;

We, Esuteatonla People, acknowledging our responsibility as co-creators with the Great Creator, in our will to build a Nation founded on The Law of The ONE--which is the Law of Balance and Harmony--within a Cosmic Christed Brotherhood, and mindful of our responsibility toward future generations; committed to build a State of Divine Rule in which all rights and duties are aligned with Universe and Nature and are secured and protected by and within the Divine Light; solemnly proclaim our firm commitment to the One Will of the Creator-God in all things and for all things; assert our determination to cooperate in Peace, Brotherhood, and Love with all peoples of the world who cherish the Divine Ideal; resolutely commit ourselves to defending the cause of Civilizational Unity and to working toward the realization of the fusion-based integration of peoples in Pe-Esute-Aton and on a Planetary level.

CONCLUSION

There you have it; set forth in the various proposed legislative texts is a blueprint for the ideal Constitution of a Great Federal Nation for the peoples who choose to follow the enlightened path outlined in this proposal.

Any open-minded person, fond of true freedom, can not help but see in this a beacon light and hope for the rebuilding of a Human civilization in cohesiveness and consistency. Achieving this goal, inevitably requires a returning to the observance of the Laws of God and of Creation in all the facets of a Nation's life, whichever it may be.

A prior reading of the key documents compiled to lay the foundations of the new Political-Civilizational Concept, the Lighted Divine Atonla Populism, will undoubtedly help the reader grasp the global political orientation as outlined in this paper. With this clarification, it is hoped that those of the leadership calibre will understand that certain key issues, such as languages and belief systems, are of particular concern because crucial they are to the deconstruction of the current societal structure. Given that without this process, no progress is and will be possible, namely building new invigorating and unifying foundations.

It is earnestly hoped that this proposed route will inspire a strong minority aware of the reality of this world's plight and who, through Divine grace, will be able to assume political power in order to implement the principles set forth. Only such leaders would be capable of leading Mankind away from the fruitless paths we have repeatedly taken thus far.
